

# Welkom bij het event Europa, hoe dan?

**Esther Peelen** adviseur internationaal Nictiz

## Programma

TIJDSTIP	ONDERWERP	SPREKER	
13.00 - 13.20	Welkom en kennismaking	Esther Peelen (adviseur Internationaal Nictiz)	
13.20 - 13.55	Wie zijn we? – Nictiz Internationaal	Elise Peters (teamlead Internationaal Nictiz)	
13.55 – 14.20	Europees netwerk voor de uitwisseling van medische gegevens	Nadine Biesma (CIBG, Senior Adviseur / Productmanager)	
15 min pauze			
14.35 - 15.00	Medische beelden en verslagen – Europa naar NL		
	De tijdlijn, rode draad van het Echte EPD	Herman Pieterman (vertegenwoordiger Nederlandse Vereniging voor Radiologie (NVvR) en gepensioneerd radioloog)	
	Wetsvoorstel Elektronische gegevensuitwisseling in de zorg (Wegiz)	<b>Eelke Toonstra</b> (projectleider Beelduitwisseling- Gegevensuitwisseling in de zorg VWS)	
15.00 - 15.25	Waardevolle inzet van zorgdata dankzij de EHDS	<b>Hugo van Haastert</b> (policy officer/Expert Nationale Detache bij DG SANTE Europese Commissie)	
15.25 - 15.50	PANELDISCUSSIE Met Hugo van Haastert, Herman Pieterman, Maayke Klinkenberg (adviseur Internationaal Nictiz) en Niels van den Bogaard (ANL group, directielid)		
15.50 - 16.00	Afsluiting	Esther Peelen en Elise Peters	

# Waardevolle inzet van zorgdata dankzij de EHDS

Hugo van Haastert policy officer/Expert Nationale Detache bij DG SANTE Europese Commissie

Betere gezondheid door betere informatie

# European Health Data Space

### European Health Data Space (EHDS)

#### **OBJECTIVES**

Timely and simplified exchange of and access to health data

#### **SCOPE & EXPECTED IMPACT**

Use of health data (primary, EHDS1)	Individuals to control their health data	data protection, free movement of people, digital goods and services
Re-use of health	Research, innovation	Facilitated Research & Innovation
data (secondary, EHDS2)	• Policy (incl. e.g. public health, HTA) & Regulatory decisions	Better Policy Making
MEANS		Capacity

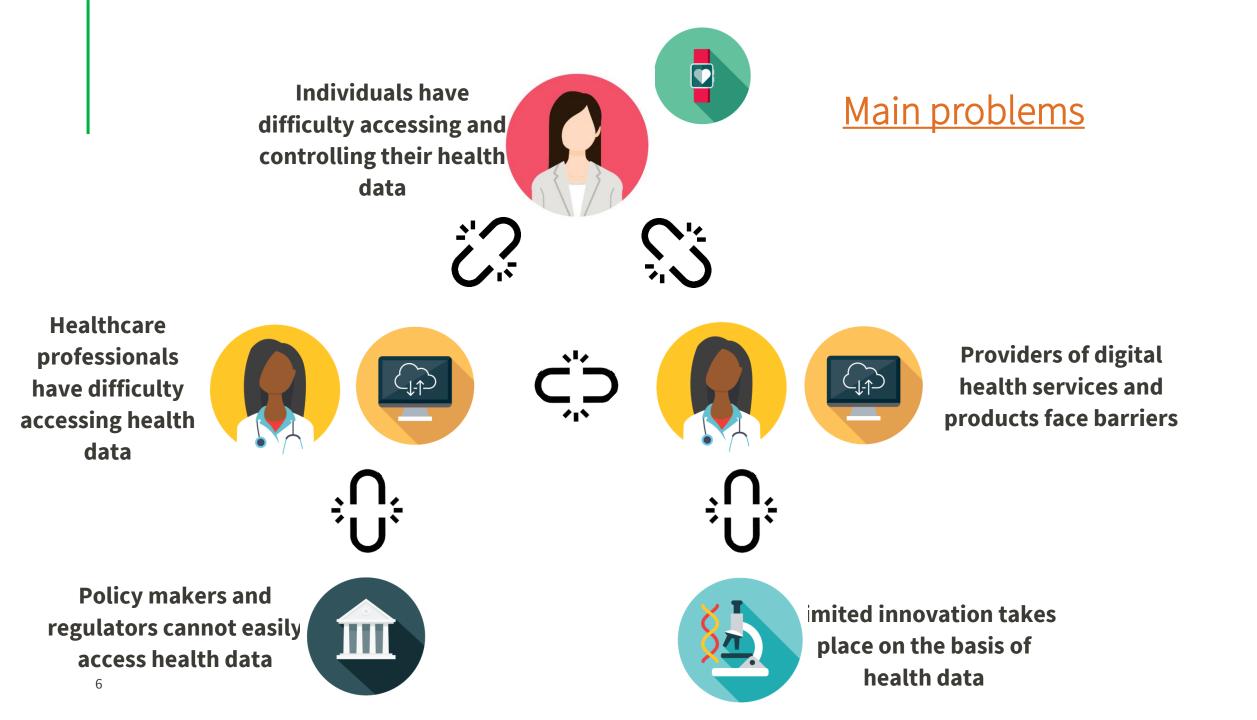

Legal / Governance

**Quality of data** 

Infrastructure

Capacity building/digitalisation (MFF)

Cincle merket for date

### What are the objectives?

Empower individuals to control their health data

Foster a single market for digital health services and products

Ensure interoperability and security of health data and a level playing field for manufacturers

7

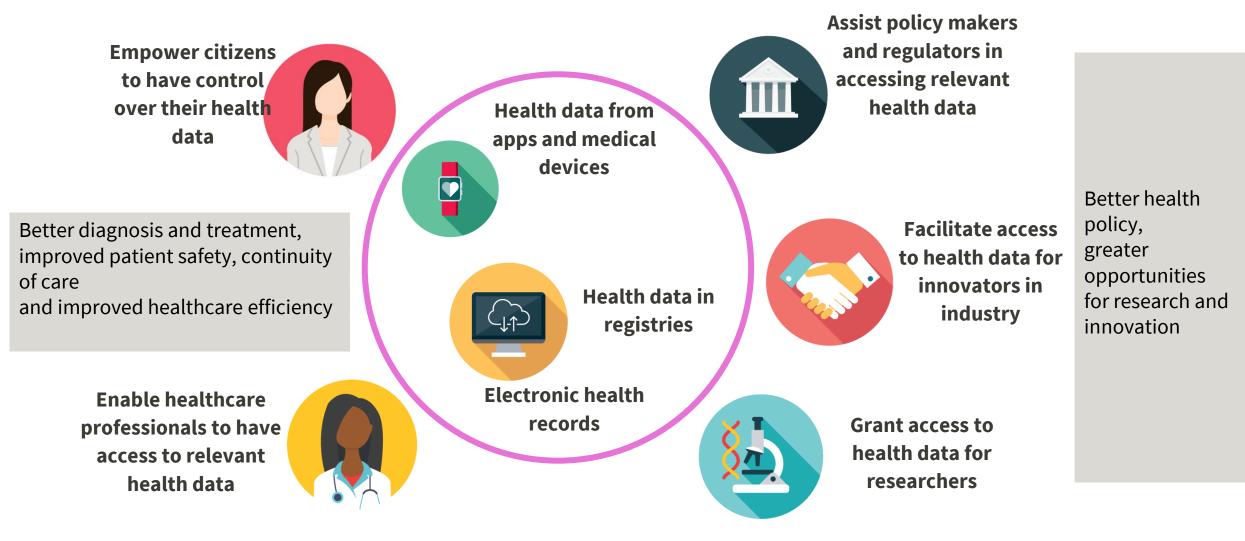

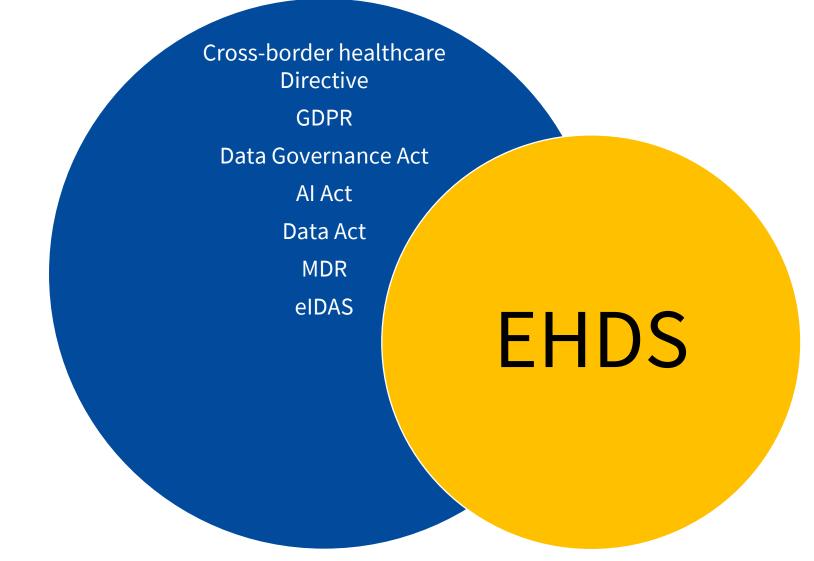

Unleash the power of the health data economy

Ensure a consistent and efficient framework for the reuse of health data for research, innovation, policy-making and regulatory activities

### User perspectives

# EHDS and other EU regulatory frameworks

## The scope of EHDS

# Strengthens the rights of individuals in relation to greater control over their electronic health data:

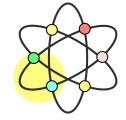

<u>Access, share health data with health professionals nationally or cross-</u> border, <u>add</u> information, <u>rectify</u> errors, <u>restrict</u> access, <u>know</u> what health professional accessed data, issue and accept health data <u>in a common</u> <u>European format</u>, strengthen interoperability.

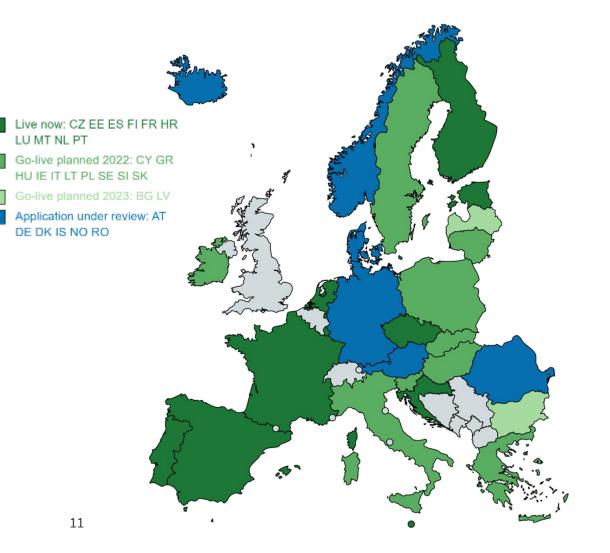

Rules for electronic health record systems (EHR systems) Rules and mechanisms supporting the secondary use of electronic health data Mandatory cross-border infrastructures for primary and secondary use of health data

- MyHealth@EU
- HealthData@EU

# MyHealth@EU

#### Currently 10 Member States are live

The number of connected Member States will grow rapidly in the years ahead - there are plans for all Member States to join **MyHealth@EU until 2025.** 

Currently there are 2 services: Patient Summary and ePrescription

This is being expanded to include Medical images, Laboratory results, Discharge letters, Rare disease data and other health information categories

A Pilot project will explore Patient Access to their health data in MyHealth@EU

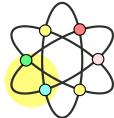

## Primary use of health data

- The legislative proposal will introduce:
- Rights of individuals and healthcare professionals to access health data
- Minimum requirements for specific health data categories in EHR systems through self-certification, registered in an EU database and voluntary labelling of wellness apps

 Mandatory deployment of MyHealth@EU with a transition period for different services

Designation of national digital health authorities, working in EU comitology towards binding Delegated and Implementing Acts

### Secondary use in the EHDS

Granting researchers, policy-makers and industry access to health data across  $_{\rm 13}$  borders in an interoperable, digital format

### Secondary use of health data

The legislative proposal will introduce:

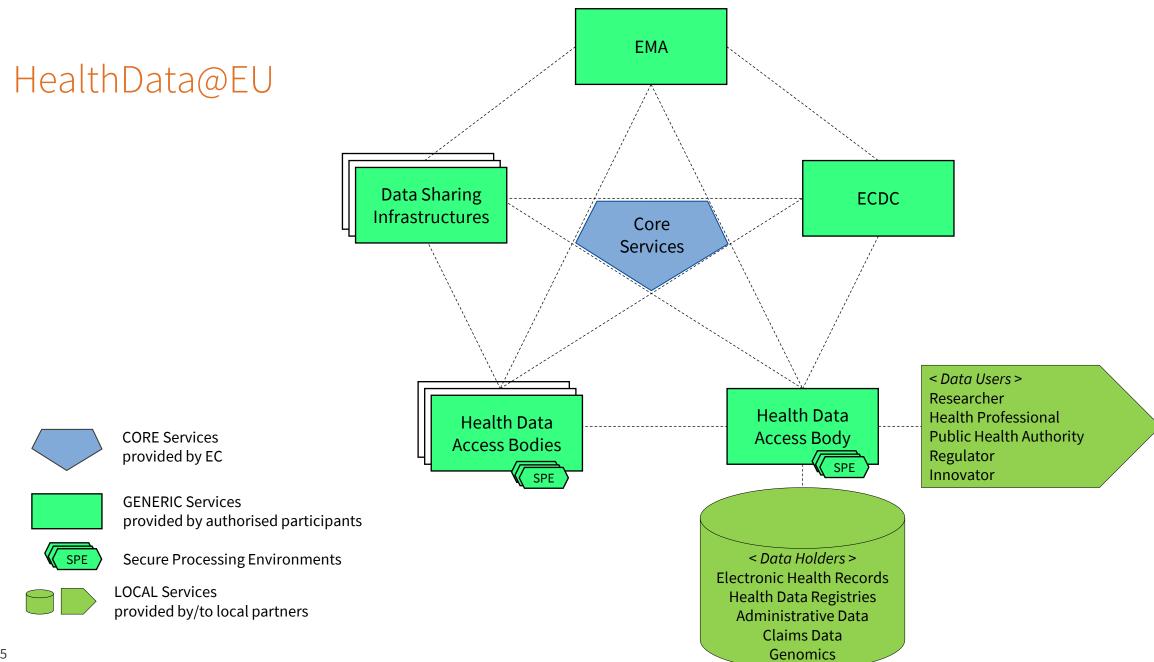

A set of minimum health data categories available for secondary use that can be used for defined purposes (EU legal base) + prohibited purposes

Mandatory designation of national Health Data Access Bodies connected through a federated EU infrastructure, with duties for data holders

Provisions on fees

Provisions on dataset description and their quality and EU dataset catalogue

### Governance

- Article 14 of Directive 2011/24/EU is deleted (Art. 71)
- a new European Health Data Space Board (high level representatives of digital health authorities (primary) and new health data access bodies (secondary) from all the Member States, the Commission, observers etc). The Commission will chair these meetings. Among other tasks, it will assist Member States in coordinating practices, issue written contributions and to exchange best practices, facilitate cooperation of Member States etc

# Governance

- Comitology committee to provide an opinion on draft <u>implementing acts</u> (now more than 20 empowerments for implementing acts in the text). They include one representative <u>from every EU country</u> and are chaired by the Commission.
- Expert groups the Commission will prepare and adopt binding <u>delegated acts</u> (now more than 10 in the text) after consulting experts groups, composed <u>of representatives from each EU country</u>.
- Joint controllership groups for two cross-border digital infrastructures (one for primary and another one for secondary uses of health data). The composition, organisation, functioning and cooperation of the sub-groups shall be set out in the rules of procedure adopted by those groups.

## Entering into force

The Regulation will start applying **one year** after its adoption following the negotiations between co-legislators.

However, the proposal foresees **several transitional periods** for the application of different elements of the proposal, especially related to the primary use of health data (*1 year from the entry into application of the Regulation for patient summaries and ePrescriptions and 3 years for images and image reports, laboratory results and discharge reports)* 

# Supporting studies and input

The EHDS proposal was drafted on the basis of input from:

The Public Consultation

Different studies (Nivel study, Regulatory gaps study, Impact Assessment, Infrastructure study, MonitorEHR study)

Feedback from the eHealth Stakeholder Group

Valuable contributions from TEHDAS and the eHN

# Next steps

The Regulation will be negotiated with the Council of the EU and European Parliament.
